INDEPENDENT ENGINEER

Unique Solutions for Maximum Performance

ENGINEERING OFFICE | PRODUCTION | SALES | SITE | FACTORY

Innovative machine design, production follow-up, factory management, business development — an independent engineer, every skill in one person.

With over 25 years of hands-on experience, an independent engineer designs and develops new machines, new projects and your industrial lines together with you. A single point of contact, directly involved from the first conversation through to commissioning — in France, Asia and worldwide. 3D design, 2D drawings, mechanical, hydraulic and electrical sizing: we deliver the full range of technical documents for your machines, while also being able to run a site, structure your business development, or take over the operational management of a factory.

★

Passion & Commitment

We put our commitment and expertise at the service of your projects, turning every challenge into an opportunity.

✓

Professionalism

Our seriousness at the heart of every project. Together, we validate each step to guarantee quality results.

●

Support & Availability

We are always here for you, with responsive, available support and continuous assistance.

> *Every idea is a rough diamond. At Atare, we're here to cut it, shape it and polish it into a real success.*

Our Services

Innovative solution design, strategic development & production optimization

Engineering Office & Equipment Innovation

3D design, 2D drawings, production plans, cutting and bending plans, mechanical, hydraulic and electrical sizing, prototype development: from ideas to reality, tailor-made.

Factory Management & Business Management

Atare steps in for an absent director or manager, supports strategic development, or turns around a struggling company.

Business Development

Building distribution networks, optimizing sales, international expansion. Atare can also carry out a direct representation mission on your behalf abroad.

Large Project Follow-up

From installing a production plant to commissioning complex equipment: deadlines, costs and technical requirements under control.

Outsourced Production & Sourcing

Finding and qualifying production partners in France, Europe and Asia, with quality follow-up of subcontractors.

Purchasing, Sourcing & Marketing

Identifying the best suppliers, optimizing purchasing costs, marketing strategy and brand image.

OUR AREAS OF EXPERTISE

- Agricultural Machinery
- Tools & Machinery
- Industrial & Specific Machinery
- Industrial Lines & Factories
- Waste & Composting
- Automation & Weighing
- Livestock Buildings

"Reorganized our production lines, new laser cutting, improved paint quality. A real asset."

Marc G.

"Thanks to Renaud, we developed an entire new range of electric-powered equipment."

Olivier R.

"Exemplary work over several years: purchasing management, supplier negotiation, full follow-up. We recommend him."

Alfredo
